

Nitrolizer Duo

ND

PRODUCT INFORMATION

Nitrolizer Duo is a dual-function product, that offers above and below ground protection for urea-based nitrogen fertilizer. Nitrolizer Duo is recommended for use urea and urea-ammonium nitrate (UAN) solution fertilizer. Nitrolizer Duo contains N-(n-butyl)thiophosphoric triamide (NBPT), a urease inhibitor to minimize ammonia volatility losses and Dicyandiamide (DCD), a nitrification inhibitor.

INGREDIENT: N-(n-butyl)thiophosphoric triamide (NBPT).....15% ; Dicyandiamide (DCD).....15%

SUGGESTED USE RATE: Urea 46-0-0: 3.0 - 4.0 liters per tonne; UAN (28-32%): 2.0- 4.0 liters per tonne

DIRECTIONS FOR USE

Wear protective face, eyewear, clothing and gloves during the handling of Nitrolizer Duo and Nitrolizer Duo-blended urea and UAN solution. Nitrolizer Duo can be blended directly into UAN solution. Nitrolizer Duo can be blended in advance or just prior to application. If pre-blended in a storage tank, recirculate the tank before use. Urea blending: Use a fertilizer blender with impregnation equipment or its equivalent to uniformly coat the urea particles. Blend Nitrolizer Duo with urea, before the addition of other fertilizer components or additives. If blend appears wet, a drying agent may be added to the fertilizer mixture. Add drying agent at approximately 1 kilogram per tonne at a time. Add more as necessary. UAN Solutions: Fill spray tank halfway with UAN and add Nitrolizer Duo directly to the UAN solution and agitate. Allow agitation to continue while adding remainder of UAN until thoroughly mixed into a uniform solution. Nitrolizer Duo is believed to be compatible with most UAN and urea combinations. Not all possible combinations have been tested, and therefore a jar test is recommended before use.

STORAGE & DISPOSAL

Store product in original container tightly closed. Keep packaging closed, securely fastened, and upright. Do not store near heat or open flame. Do not reuse container. Do not allow product to freeze. In cold weather, this product may stratify or freeze. If this occurs, thaw and remix before using. Store above 45 F/7 C. Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site: 1. Triple or pressure-rinse the container. Add the rinsings to the spray mixture in the tank. 2. Make the empty, rinsed container unsuitable for further use. If there is no container collection site in your area, dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

DANGER

Combustible liquid. Causes serious eye damage. Causes skin irritation. May cause an allergic skin reaction. May be fatal if swallowed and enters airways. Suspected of damaging fertility or the unborn child.

FIRST AID

GENERAL ADVICE: Seek medical advice. **IF SWALLOWED :** If victim is conscious and alert, wash out mouth with water and keep at rest. Seek medical attention. Do not induce vomiting or give anything to drink. **IF IN EYES:** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Seek medical advice. **IF ON SKIN:** Immediately wash with plenty of soap and water for at least 15 minutes and remove contaminated clothing and shoes. **IF INHALED:** Move person to fresh air. If breathing is difficult, give oxygen. If victim has stopped breathing, administer CPR (cardio-pulmonary resuscitation).
